

BeeHarmony - Meet your perfect match!

If giving away bees isn't on your to-do list because you don't know how to make splits, or think you don't have the time for it, you're in luck! **We will come and help you!** An experienced beekeeper will visit your apiary to assess if your hive needs splitting and/or assist with the split and/or re-hiving process. Don't wait! **SPLITS PREVENT SWARMS!**

Bees are a precious commodity. If you expect to receive bees, then we expect **you have at least basic experience or will get some!** Contact Claire DeLeo (claireofthelion@gmail.com) to join the BCBA Mentoring program. It's **free to all BCBA members!!**

DO NOT ask for bees unless you are ready to receive them **NOW!** You **MUST** have the minimum equipment set up and ready to go. Bees wait for no one. If you get the call and you are not ready, they will go to the next person waiting.

PRINT CLEARLY - if we can't read it, we can't process your form!

Name: _____

Address of Apiary: _____

Phone: _____ is text okay? Yes No Email: _____

Please initial the appropriate statements

Bee Source

Bee Recipient
